HE POWER OF FEAR.

Authoratic instances of the hair turnin

white in a few hours or a night through fear or sudden shock could be muitipfied indefinitely, mays Orison Swett Marden in Success. It is stated that when Ludwig ghost would haunt his bedroom. of Bavaria learned of the innocence of his wife, whom he had caused to be put tious, begged him earnestly not to do ness, his hair became as white as snow

within a couple of days.

When Charles I attempted to escape from Carisbrooke Castle his hair turned white in a single night. The hair of Marie Antoinette was suddenly changed

Marie Antoinette was suddenly changed by her great distresses. On a portrait of herself which she gave to a friend she wrote. "Whitened by affliction."

This power of fear to modify the currents of the blood and all the secretions, to whiten the hair, to paralyze the nervous system and even to produce death, is well known. Whatever makes people happy, whatever excites enjoyable emotions relaxes the capillaries and gives freedom to the circulation, whatever depresses and distresses us, disturbs us, worries us; in fact all phases of fear contract these blood vessels and impede the free circulation of the blood. This is illustrated in the pale face caused by fear or terror.

"THOMPSON'S CURSE."

How the Plant Was Introduced Great Britain Its Rapid Spread.

From the Cheltenham Examiner. In the report of a field meeting of the Cotteswold Naturalists Club there is an interesting story of a plant which was introduced into this country a hundred rears ago. This plant has just completed the teeth anaiversary of its introduction into this country, for it was one of the legacies left by the unsuccessful attempt made by the British against the French in

Lord Chatham, supported by a naval force of Prussia, the Kaiser's brother, Prof. under Strachan, landed on the island of Walcheren at the mouth of the Schelde, and combarded and captured Flushing; they failed to take Antwerp, and were finally driven from Zeeland with great loss. The and Hilmers, will form the party which broken down feverstricken British troops itimately disembarked at Ramsgate.

slent were afterward thrown into a disused other refuse was mixed with it, and in due time it was employed to manure the neigh-boring fields. Wherever the material was used a pientiful crop of the plant followed, so much so that in Kent it became known as "Thompson's weed," or "Thompson's

From Ramsgate the plant spread over the its headquarters may be said to be the edges of the cliffs and the roadsides about Margate and Browistairs, where it forms a gate and Broadstairs, where it forms a conspicuous feature of the vegetation. When once it had taken hold of the soil it become a terrible pest; its roots were many feet in length and soon choked the drainings of the fields. Considering the invocase number of seeds of alien plants which are annually turned out from the straw and other materials now being used for marking the articles of commerce which reach Great Britain and Ireland from all the countries of the world the surprise is that so few of them make any permanent impression upon the constituents of the native vegetation. But Gerdaria draba was one of the few plants which had come to stay, and it has reached the Cotteswolds. It is graduily spread no all over the country.

to death on suspicion of her unfaithful- thing so dreadful. Threats still but the Sicilian's terms have come down to \$2,000, so Salvadort is taking the

Early one morning in Milan a wild being individual broke into the poet's bed room and placed a plaster cast on the table This is my masterpiece," he said. "and

The poet had great trouble in ridding himself of his unwelcome visitor, who however, haunted him daily in the street and followed him with the plaster care wherever he went. By degrees the man erms came down to \$10, when Salvadara bought the cast for the sake of peace.

One of the most curious among a shoul of begging letters was from a woman

in Faunta. You have the \$5,000 which need for my happiness. Perhaps you are not thinking of marrying, but I am engaged Be magnanimous! Give me \$2,000 for my wedding outfit and I will get married at once. You shall stand godfather to our first son, whom we will name after you Salvadori thinks fame is dearly bought

The advance party of the Zeppelin polar expedition will leave Kiel for Spitzbergen on the North German Lloyd steamfirst week in July. In addition to Count Walcheren expedition.

A land force of e0,000 British troops under Zeppelin, it is expected that Prince Henry Hergesell, Herr von Friedlaender Fuld, Herr Lewald, Herr Niethe, Profs. Dry galski and Reich, and Capts. Knesebeek goes north to make preparations for the 1913 aerial dash for the pole. Mainz has been fitted up with wireless

telegraphy. Count Zeppelin's aerial vovage to Vienna has been postponed until September. He is planning to arrive in the Austrian capital upon Emperor Franz Josef's eightieth birthday.

Seawanhaka Challenger Beaten

The Seawanhaka cup challenger St. Lawrence was outsailed on Lake St. Louis recently by the Thorella in a very light breeze. Six yachts of this class started in the contest. The St. Lawrence was handicapped three minutes, but in a race that took less than an hour and a half to sail Thorelia defeated her by more than three minutes actual time without availing herself of the allowance. The Thorella took 1 hour 22% minutes to sail the course took I hour 22½ minutes to sail the course while St. Lawrence took I hour 25½ minutes. The Whitecap was third, ten minute behind. Later in the afternoon a goostrong breeze blew and then the St. Lawrence showed her superiority by defeating Thorella three times over a short course. The difference in her favor was never less than a minute and a half in each of these three races.

CURED MY BABY OF ITCHING ECZEMA

First Came when 3 or 4 Weeks Old. Used Everything Imaginable. Nose and Eyes Nothing but Sores. Two Cakes Cuticura Soap and One Box Cuticura Ointment Cured.

I can't tell in words how happy the word "Cuticura" sounds to me, for it cured my baby of itching, torturing eczema. It first came when she was between three and four weeks old, appearing on her head. I used everything imaginable and had one doctor's bill after another but nothing cured it. Then the eczema broke out so badly behind her ear that I really thought her ear would come off. For months I doctored it but to no avail. Then it began at her nose and her eyes were nothing but sores. I had to keep her in a dark room for two weeks. The doctor did no good, so I stopped him coming.

For about two weeks I had used Cuticura Soap for her every day, then I got a box of Cuticura Ointment and began to use that. In a week there was a marked improvement. In all I used two cakes of Cuticura Soap and one box of Cuti-cura Ointment and my baby was cured of the sores. This was last November; now her hair is growing out nicely and she has not a sear on her. I can not praise Cuticura enough, I can take my child anywhere and people are amazed to see her without a sore. From the time she was four weeks old until she was three years, she was never without the terrible eruption but now, thanks to Cuticura, I have a well child.

(Signed) Mae. H. E. HOUSEHOLDER, 2004 Wilhelm Street, Baltimore, Md.

Sufferers from terturing, disfiguring eruptions of skin and scalp should read the latest 32-page Cuticura Book, free of Potter Drug & Chem. Corp., 131 Columbus Ave., Boston.
